Subject: Microsoft Settlement

I am a middle class worker, saving for retirement...with a fair amount of Microsoft stock in my portfolio. Ever since the Reno/Clinton "Justice" Department abused Microsoft through the courts, I have had my retirement portfolio abused also. The settlement has been accepted by DOJ and Microsoft, our nation's economy has already taken enough hits, let Microsoft and the American economy serve our interests by growth and innovation. We have gotten rid of Reno/Clinton, now let's get rid of the droppings they afflicted us with.

END THIS NOW!!

Sincerely,
Kevin Smith
